

Chapter 01 MISSISSIPPI CONRAD STATE 30 J-1 VISA WAIVER PROGRAM GUIDELINES

- 100 The Mississippi State Department of Health (MSDH) is committed to assuring that all Mississippi residents have access to quality, affordable health care. The Office of the State Health Officer maintains the responsibility within the state of recommending and processing, through its Mississippi Office of Rural Health and Primary Care, J-1 Visa waiver requests for the United States Information Agency's (USIA) "Conrad State 30 Program".
- 100.01 The primary purpose of the Mississippi J-1 Visa Waiver Program through the "Conrad State 30 Program" is to improve access to primary health care in physician shortage areas in Mississippi and secondarily, to needed specialty care, by sponsoring physicians holding J-1 Visas.
- 100.02 Health care facilities/sites interested in employing J-1 Visa Waiver physicians must submit a "Site Predetermination Application" to the Mississippi Office of Rural Health and Primary Care, prior to developing a complete Mississippi Conrad State 30 J-1 Visa Waiver Application to determine if the proposed J-1 physician placement will qualify for the Program.
- 100.03 A non-refundable processing fee of \$1,500.00 is required to process a complete Mississippi Conrad State 30 J-1 Visa Waiver Application. A check or money order from the sponsoring facility should be made payable to the Mississippi State Department of Health and submitted with the complete Mississippi Conrad State 30 J-1 Visa Waiver Application. No complete Mississippi Conrad State 30 J-1 Visa Waiver Application will be processed without payment of the processing fee. The US Department of State requires that the J-1 Visa Waiver Data Sheet DS-3035 be submitted to the appropriate address contained in the Department's policies, along with their required user processing fee and two self-addressed, stamped, legal-size envelopes. For additional information, contact the US Department of State or visit their website.
- 100.04 The USIA file number must be placed on each page of the Mississippi Conrad State 30 J-1 Visa Waiver Application.
- 100.05 The State of Mississippi recognizes that the J-1 Visa Waiver Program through the "Conrad State 30 Program" affords J-1 Visa holders the privilege of waiving their two-year foreign residency requirement in exchange for providing primary or specialty medical care in designated health professional shortage areas.

- 100.06 The operation of the Mississippi J-1 Visa Waiver Program through the "Conrad State 30 Program" is designed to be consistent with other health care programs and policies of the State of Mississippi.
- 100.07 The purpose of the following Guidelines is to articulate the conditions under which the State of Mississippi will request a waiver for physicians holding J-1 Visas through the "Conrad State 30 Program". Information on currently designated health professional shortage areas (HPSAs) for primary medical care or mental health recommendations will be provided upon request. Medical facilities located in those counties which are a part of the Appalachian Regional Commission are not eligible to recruit primary care J-1 Physicians through the program, with the exception of psychiatrists and specialists.
- 100.08 The review cycle begins upon MSDH receipt of the Site Pre-Determination Application and must be concluded within 180 days.
- 100.09 The operation of the Mississippi J-1 Visa Waiver Program through the "Conrad State 30 Program" will in no way interfere with any other J-1 Visa Waiver Program including, but not limited to, placements through the MSDH Mississippi Office of Rural Health and Primary Care for the Appalachian Regional Commission. The Mississippi J-1 Visa Waiver Program through the "Conrad State 30 Program" is a separate and distinct program from any other program and is an additional program to any now operating within the State of Mississippi.
- 100.10 The Mississippi State Department of Health's Guidelines are completely discretionary, voluntary, and may be modified or terminated at any time. The submission of a complete waiver package to the MSDH does not ensure an automatic waiver recommendation. In all instances, MSDH reserves the right to recommend or deny any request for a waiver.
- 100.11 Definition of a Health Professional Shortage Area (HPSA)* - Section 332 of the Public Health Service Act provides that the Secretary of Health and Human Services shall designate HPSAs based on criteria established by regulation. HPSAs are defined to include geographical areas - urban and rural, population groups, and facilities with shortages of primary health care and mental health providers.

Population Designated HPSAs - Requests for a J-1 physician to practice in a population-designated HPSA must include evidence that at least 51 percent of the facility's patients are members of the designated population.

Facility Designated HPSAs - This applies to correctional facilities and state mental hospitals. Some public and non-profit private facilities located outside designated HPSAs may be designated if they are shown to be accessible to and serving a designated geographic area or population group HPSA.

*Definitions obtained from the Office of Shortage Designation in Bethesda, Maryland

100.12 An Employer/Medical Facility eligible to recruit and hire J-1 Visa physicians through the Program must be a facility that meets one of the following criteria:

1. a public health facility, an ambulatory medical facility, a community health center, a community mental health center; or
2. a hospital or state mental hospital.

101 **GENERAL GUIDELINES:**

101.01 The State of Mississippi is prepared to request through the Program waivers for physicians holding J-1 Visas for the purpose of waiving the two-year foreign residency requirement. All conditions of the following Mississippi Conrad State 30 J-1 Visa Waiver Guidelines must be met. Employers are encouraged to impose additional provisions in order to assure that the delivery of care is consistent with their facility's policies.

1. Physicians who have completed a U.S. residency training program in family practice, general internal medicine, general pediatrics, and obstetrics/gynecology are considered primary care physicians and are eligible to participate in Mississippi's "Conrad State 30" J-1 Visa Waiver Program. Psychiatrists may also be considered for the program. Physicians with other specialties are not considered to be primary care physicians for the purpose of the Program.
2. Physicians trained in other specialties may be considered for placement in designated areas of shortage in accordance with the addendum section for specialists of the Mississippi Conrad State 30 J-1 Visa Waiver Application.
3. It is recognized that emergency rooms are utilized for primary care services by some populations. Requests for emergency room physicians will be considered, however, as a specialty and will require documentation that primary care services are inadequate within the service area.

8. The facility or practice where the J-1 physician will work must have been operational at least six months at the time the waiver request is submitted. Evidence should include the business license and occupancy permit, facility address, fax and telephone numbers, staffing list. Exceptions may be considered.
9. The facility or practice must accept all patients regardless of ability to pay. The sponsoring entity must agree to provide services to individuals without discriminating against them because (a) they are unable to pay for those services and/or (b) payment for those health services will be made under Medicare and Medicaid. The sponsor may charge no more than the usual and customary rate prevailing in the HPSA in which services are provided.
10. The facility must post a schedule of discounts or an adopted sliding fee scale in its waiting room. Charges must be discounted for persons at or below 200 percent of poverty level. If the person is unable to pay the charge, such person shall be charged at a reduced rate in accordance with an adopted and utilized policy or not charged at all. The notice in the waiting room must contain at least the information set forth in the sample notice provided in this application package.
11. The J-1 Visa physician must accept assignment under Section 1842 (b)(3)(ii) of the Social Security Act as full payment for all services for which payment may be made under Part B of Title XVIII of such act (Medicare).
12. The J-1 Visa physician must enter into an appropriate agreement with the Mississippi state agency which administers the state plan for medical assistance under Title XIX of the Social Security Act (Medicaid) to provide services to individuals entitled to medical assistance under the plan.
13. The employer must make known to the HPSA community that the J-1 physician will comply with the terms and conditions stated in the Guidelines by posting a notice in a conspicuous place in the waiting area of the practice stating that all patients will be seen regardless of their ability to pay.
14. The waiver request must include support letters from the majority of the local practicing physicians, area hospital administrator(s) and community leaders.
15. The physician must not have been "out of status" (as defined by the Immigration and Naturalization Service of the United States Department of Justice) for more than 210 days since receiving a visa under 8 USC 1182 (j) of the Immigration and Nationality Act, as amended. The physician shall provide the FCC all copies of his or her Certificates of Eligibility for Exchange Visitor (J-1) Status forms and every other document needed to verify status, including a copy of the federal J Waiver Visa Recommendation Application. The name

of the foreign trained provider must be provided during the initial “Site Predetermination Application” process in order to remain compliant with this requirement.

16. A statement in writing is required indicating that the home government has no objection to the waiver if the physician's medical education or training has been funded by the government of the graduate's home country. He or she should obtain this statement from the physician's embassy in Washington or home country. The "No Objection" statements for these physicians should contain the following or similar language:

Pursuant to Public Law 103-416, the Government of (Country) has no objection if (name and address of the foreign medical graduate) does not return to (Country) to satisfy the two-year foreign residence requirement of 212(e) of the Immigration and Nationality Act (INA).

17. The J-1 physician and his/her employer must, on commencement of practice and annually thereafter through the contract period, verify the physician's practice site address and field of practice. The reporting can be submitted on the “J-1 Visa Physician Verification of Employment Form” contained in this application packet. The first report must be submitted within 30 days. For population based HPSAs, documentation that the population the foreign physician was placed there to serve was indeed served must be maintained. The final report must indicate whether the J-1 physician intends to remain in the shortage area to practice. Failure to submit accurate reports in a timely manner that complies with the Mississippi Conrad State 30 J-1 Visa Waiver Guidelines will jeopardize future eligibility for J-1 Visa physician placements.
18. Job transfers must be approved by MSDH before the transfer occurs so that it can be determined if the new area is rural and still underserved. Refer to “Transfer” section for related procedures and minimum requirements.
19. The Site Predetermination Application must include a HIV test result and evidence of screening for latent and active tuberculosis. The tuberculosis screening must include: a tuberculosis signs and symptom assessment by a licensed physician or nurse practitioner; testing for infection performed by an interferon gamma release assay (IGRA) when reasonably available or a Mantoux tuberculin skin test (TST) when the IGRA is not available; and a chest x-ray with a written interpretation. Both the HIV test result and tuberculosis screening must have occurred within the past 6 months prior to the submission date of the Site Predetermination Application, with the exception, of the IGRA and TST if documentation of current or previous tuberculosis treatment completion is provided with the submission.

20. The Mississippi Conrad State 30 J-1 Visa Waiver Program will consider requests for recommendations of specialists and placement of J-1 physicians at facilities not located in a HPSA designated area (provided the facility is serving patients from a nearby HPSA designated area) in accordance with current federal guidelines regarding FLEX slots.

Facilities not located in a HPSA must submit in the Site Predetermination Application, patient origin information indicating that at least 25% of the patients served by the facility are from a nearby HPSA. The patient origin information must be current (not to exceed 18 months prior to the submission date of the Site Predetermination Application).

The Addendum for Specialist Section of the Conrad State 30 J-1 Visa Waiver Application provides information on the submission requirements for specialists.

21. Please refer to Section 107 NATIONAL INTEREST WAIVER (NIW) LETTER REQUESTS for the requirements for submitting a request for consideration of a national interest waiver letter of support.

102 EMPLOYMENT CONTRACT:

- 102.01 The J-1 physician is responsible for locating and negotiating a contract for a minimum of three (3) years and preferably four (4) years (unless the service requirement is amended) to provide care a minimum of 40 hours per week, as a primary care physician or psychiatrist in a federally designated HPSA in Mississippi. The 40 hours must be performed during normal office hours, or hours which best suit the needs of the community, and may not be performed in less than four (4) days a week. - 102.08 For the statutorily-required 3 years, there can be no changes to the contract that would result in the J-1 physician leaving the agreed-upon site and treating the patients he/she has agreed to treat in the manner agreed upon, unless the contract of resulting transfer has been approved by the MSDH.
- 102.09 The contract should not state commencement or expiration dates. It is a tentative contract based on the application being approved through MSDH, U.S. Department of State and INS.
